SUMMARY

Developer and technical-functional analyst, co-founder of Guia, with experience in web and frontend development (React, TypeScript), UX/UI design, systems integration, REST/SOAP APIs, testing and requirements analysis under Agile/Scrum. Focused on a development role where I can contribute my technical profile and problem-solving skills.

TECHNICAL SKILLS

Web Development: HTML, CSS, JavaScript, TypeScript, React.js, Redux, TanStack Query, Tailwind CSS, Angular

Mobile: Kotlin, Android

Game Development: C++, C#, GDScript, Unity, Godot Engine

Backend: Node.js, Express.js, PHP, Java, Python

Databases: SQL, MySQL

Tools: Git/GitHub, Figma, Postman, Newman, Vitest, Playwright

Methodologies: Agile, Scrum

EXPERIENCE

Co-founder · Frontend Developer and UX/UI Designer

Sep 2026 – Present

Guia (Desarrollos Guia) · Remote

Technologies: React, TypeScript, Vite, TanStack Query, Tailwind CSS, Zod, OpenAPI, Vitest, Playwright, Figma, Cloudflare Pages

- Audenpass (audenpass.com): event ticketing platform, the studio's first project, live in production for a client.
- End-to-end design in Figma (design system, desktop and mobile screens, dark mode) and development of the entire frontend.
- Contract-first integration with OpenAPI and a mock backend, so the frontend moved in parallel with the backend and switched to the real API with minimal changes.
- Automated quality: about 180 unit and integration test files, 19 E2E suites and accessibility checked with axe.
- Client relationship, planning, milestone deliveries (77 pull requests, five signed-off releases) and acceptance testing.
- From first commit to production in about three and a half weeks, two days ahead of the committed date.

Technical Functional Analyst

Dec 2024 – Present

Diagnóstico Maipú (SMG) - Laboratory Information Systems (LIS)

Promoted internally from the administrative team.

Technologies: JSON, XML, REST/SOAP APIs, Postman, Agile

- Functional and technical analysis of requirements for critical system modules.
- Implemented and supported integrations between systems (LIS, ERP) via APIs and web services.
- Designed and ran functional and technical tests; automated validations with Postman and Newman.
- Analyzed logs, traces and traffic across systems to identify, debug and fix errors.
- Wrote technical documentation, user stories and acceptance criteria for development teams.
- Worked continuously with backend, frontend and QA teams to prioritize and resolve issues.

Front-end Web Developer (freelance)

Aug 2023 – Sep 2023

Enivel7 - Máximo Pinasco / Ford

Technologies: HTML5, CSS3, JavaScript, Responsive Design

- Built the web interface using HTML5, CSS3 and JavaScript.
- Implemented responsive design for mobile and desktop devices.
- Integrated interactive elements to improve site usability.

Receptionist and Administrative Assistant

Jul 2021 – Dec 2024

Diagnóstico Maipú (SMG)

- Streamlined administrative processes and operational documentation.
- Claims handling, cross-area coordination and data management.
- Staff training and workflow standardization.

FEATURED PROJECTS

- **Audenpass** - Event ticketing platform live in production (audenpass.com). Figma design and the entire frontend in React and TypeScript.
- **Formula 1 Debrief** - Fullstack web platform to follow Formula 1 results and data. React, Express and MySQL.
- **World Cup 2026 Predictor** - App to predict the results of the 2026 World Cup matches. React and TypeScript.

- **WhatToWatch** - Android app that consumes a movie and series API. Kotlin.

EDUCATION

- University Technical Degree in Systems Programming (2024) - UCES
- Product Owner (2025) - Educación IT
- API Testing (2025) - Educación IT
- FullStack PHP Developer (2024) - Codo a Codo 4.0
- FullStack Python Developer (2023) - Codo a Codo 4.0
- React.js (2022) - Coderhouse
- JavaScript (2022) - Educación IT
- Web Development with HTML5 and CSS (2022) - Educación IT
- UX/UI Design (2022) - Codo a Codo 4.0
